

'Learning Conversations' with young children

Staff from *Everton Nursery School and Family Centre* and *Our Lady Immaculate Catholic Primary School* are working with the *University of Cumbria* on a new and exciting research project.

The aims of the project are:

- to find out more about young children's conversations
- to find out more about the range of strategies practitioners use to engage in conversation with young children

A large number of short video clips of children in conversation will be analysed in school.

We will ask for parent/carer consent for a small number of selected video clips that will be used for further research.
